Version 1.5.5 (11/23/26) Technical Update

SCS-VR™ software has been updated to Version 1.5.5 (11/23/26).

New Feature

Backup Database Alert Banner

An alert banner is now sent and displayed in SCS-VR when a backup database cannot be reached.

Improvement

Silent Install Checkpoints

This update adds checkpoints to the **Silent Install** process to ensure the install runs smoothly and the services start up successfully. A report is also sent that indicates whether each checkpoint was successful or failed.

Obtaining the New Software

Contact the Software Support Team in DMP Technical Support at 1.888.436.7832 for information on updating to SCS-VR Version 1.5.5 (11/23/26).
