Single Sign-On

Single sign-on (SSO) provides a convenient and secure way for companies to authenticate users into DMP cloud software.

Virtual Keypad, **Dealer Admin** and **Security Command** support single sign-on capabilities for end users and dealers. When SSO is enabled, users are redirected to the appropriate identity provider's login page to ensure valid access before being logged in.

Target Markets: Enterprise-level End Users, Retail, Multi-Site

Key Differentiators: Compatible with many IdPs, unlimited users, low monthly cost

Cost: One-time $2,000 USD* set up fee (per platform), plus:	
Virtual Keypad	$50 USD per month per customer
Dealer Admin	$50 USD per month per account
Security Command	$50 USD per month per account
