

# VUE Video Doorbell

The First Line of Defense

## It's not just a doorbell, it's part of your alarm system

VUE Video Doorbell blends high-resolution video, AI detection and flexible installation options into a sleek, compact design. It delivers real-time situational awareness while ensuring privacy and reliability.

For residential applications, it represents the next generation of unified intrusion and video solutions — easy for dealers to install and enjoyable for users to experience.

- Increase RMR opportunities through video + intrusion packages, including video verification services
- Simplify your customer experience with one unified platform
- Instant AI-triggered alerts
- High-quality video
- Fully integrated with DMP platforms, compatible with AlarmVision

***Give your customers a deep sense of control and security in an unpredictable world.***

## INCREASE RMR WITH VIDEO SERVICES

Maintain a competitive edge by providing a fully integrated, intelligent intrusion solution.

VUE Video Doorbell can be viewed by monitoring center operators for video verification purposes, enabling recurring revenue service plans and maintenance add-ons.

## INSTANT, ACTIONABLE AWARENESS

Get the right alerts at the right time with smart, meaningful notifications. Use AI-triggered alerts to detect motion, vehicles, people and packages. No false alarms. No wondering what that noise was. Nothing important will be missed. VUE Video Doorbell offers deterrence and confirmation when you need it most.

## CLEAR, RELIABLE VISUALS

See who's there day or night, with hi-res 5MP video, 3K quality, true WDR and low-light visibility (IR + warm light). The wide-angle, HD video with night vision keeps users informed at all times. Their front door should never be a question mark.

## SECURITY & CONTROL

VUE Video Doorbell is integrated with Dealer Admin and Virtual Keypad, combining video and intrusion in one convenient app. Remote access allows users to answer their door from anywhere via their smartphone.
