

New Feature

Effective September 15, 2025, the Video Verification page made available to Monitoring Centers in the event of an alarm has been updated with UI improvements for systems utilizing V-4000, V-5000, and V-6000 Series cameras.

UI Improvements

Previously, operators viewing systems with V-4000, V-5000, and V-6000 Series cameras were sent to Video Verification pages that displayed the UI in Figure 1. Now, operators see the updated UI featured in Figure 2.
