

FEATURE UPDATE | OCTOBER 2025

Panel Event Buffer Reports

Dealer Admin has been automatically updated to support creating **Panel Event Buffer** reports. You can now view reports that include up to 45 days of the panel's local event buffer.

To create a **Panel Event Buffer** report, complete the following steps:

1. Log in to Dealer Admin (dealer.securecomwireless.com).
2. Select **Customers**, then select the **System Name** you want to create a report for.
3. Select **System Reports**, then select **Panel Event Buffer**.
4. Choose one of the following report types:
 - **Standard**: Request all events except door access
 - **Door Access**: Request only door access events
 - **Both**

 **Note:** Choosing a report type is only available for XR Series and XT75 Control Panels.

5. Choose when you want the **Start Date** for the report to be. The default is set to 5 days before the report creation date.
6. Choose when you want the **End Date** for the report to be. The default is set to the current day.

 **Note:** Choosing a **Start Date** and **End Date** is only available for XR Series, XF6 Series, and XT75 Control Panels.

7. Select **Request Report**. The report displays in **Saved Reports**.

 **Note:** Up to 5 reports can be stored in **Saved Reports**. After 30 days, any **Saved Reports** expire and are automatically deleted.

8. Select **Download Report** to download the file to your device.
