

TECHNICAL UPDATE | DECEMBER 2025

Version 255 Update

Updated Version 255 (12/1/25) firmware is now available for XR Series Control Panels.

Exit Delay Improvement

Previously, when an area with a programmed **Exit Delay** was armed, any other areas armed remotely would initiate the **Exit Delay** countdown at the keypad, even if the areas did not have an **Exit Zone** programmed. Now, when an area is armed remotely, the **Exit Delay** countdown only initiates for the specified area that is being armed if it has an **Exit Zone**.

Obtaining the New Firmware

XR Series firmware updates are available, free of charge, on Dealer Admin (dealer.securecomwireless.com) or for download from DMP's [Product Software Downloads](#).
