Version 2.53 Update

Updated Version 2.53 (12/3/25) firmware is now available for Remote Link.

XF6 Support Improvement

Previously, Remote Link disconnected from XF6 Series panels that had firmware versions higher than what Remote Link supports. Now, this update allows Remote Link to connect to those panels as intended, but displays a warning to notify you that you may not be able to view the most updated programming options supported by the panel.

More Information

For more information about Remote Link, refer to Remote Link Help: Program the Panel.

Obtaining the New Firmware
