

TECHNICAL UPDATE | JANUARY 2026

Version 2.53 Update

Updated Version 2.53 (1/27/26) firmware is now available for Remote Link.

XF6 Zone Expander Field

A field has been added in Zone Information to allow input of an expander serial number when programming XF6 zone numbers 500+ via Remote Link.

Valid Input Improvements

Remote Link has been updated to only allow for valid inputs in various fields.

Reduced Error Messages

Previously, Access Violation Error messages displayed at incorrect times. Now these messages only appear when relevant.

More Information

For more information about Remote Link, refer to [Remote Link Help: Program the Panel](#).

Obtaining the New Firmware

The newest update to Remote Link is available for download, free of charge, on Dealer Admin (dealer.securecomwireless.com).
